

# Tasty Planet

Control a tiny ball of grey goo which eats everything around it. The more it eats, the bigger it gets! The goo eats anything that gets in its way: dirt, bacteria, bugs, fish, mice, cats, dogs, cars, trees, houses... Everything! Soon the entire planet will be eaten by this crazy ball of goo. Fortunately you're on the goo side.

- Eat your way through over 60 levels
- Tons of different things to eat
- Choose one of three different game modes to suit your style
- Use the gallery screen to keep track of everything that you've eaten
- Grow from a tiny bug-eating goo into a gigantic planet-gobbling goo

System Requirements	
Windows 95 and up 600 MHz Processor 64 MB RAM DirectX 7	Mac OS 10.3.9 or higher 600 MHz Processor PowerPC or Intel
